

## for Emergency Repairs

Looking for a full range of quality repair products for above and below water?  
What about genuinely field-friendly products that won't expire in storage?  
Is health and safety when using such products a big concern?

### WHY SCUBAPOXY?

- ✔ Solventless, non-corrosive products with no odours, carcinogens, heavy metals or flammables. Safe to use in confined areas.
- ✔ Easy-to-use mix ratios and long storage life, combined with surface tolerance gives truly field-friendly products.
- ✔ Resin-rich formulations give superior adhesion compared to traditional "putty" products. Sticks to all common materials, above and below water.
- ✔ A full range available, including flexible, fast-cure and heavy-duty products.
- ✔ Proven track record of performance in emergency repairs for over 10 years. Don't fall for the cheaper options that fail within 6 months!
