

EZYPATCH

Stir-in Aggregate Blend for Patching

DESCRIPTION

A stir-in, aggregate blend for creating patching compounds with clear, two-pack epoxy binders.

Quality minerals are selected and a specialty blend of particles used to make a lightweight crack repair material that's resists tearing and slumping without the need to use messy additives such as fumed silica.

USES

Suitable for use in all clear epoxy binders manufactured by Real World Epoxies - Artepoxy, Ezyoxy and Jaxxon.

PRODUCT DETAILS

Type: Aggregate blend.
Colour: Natural colour.
Pack Size: 5kg.

BENEFITS

- ✓ Specially formulated aggregate blend.
- ✓ Easy to work - resists tearing and slumping.
- ✓ Fills cracks and holes.
- ✓ High compressive strength for heavy traffic areas.

MIXING

For full safety instructions, consult SDS. Wear protective clothing, goggles and gloves to prevent skin and eye contact.

Pour Part B of product into Part A as per normal instructions and mix until a consistent colour is obtained. Gradually add Ezypatch while mixing until desired viscosity is obtained, scraping sides with a flat spatula to ensure all product is taken in.

PRODUCT NOTES

- Addition rate will depend on viscosity of binder and ambient temperature. Adding 1kg of filler to every 1.5kg of resin can be used as a typical starting point.
- Pigmenting mix can result in a more fluid material which may require more aggregate to achieve suitable viscosity.

STORAGE

Keep containers closed when not in use. Seek advice from your local council regarding accepted disposal methods.

FIRST AID

CAUTION: KEEP OUT OF REACH OF CHILDREN.

IF ON SKIN: Rinse skin after manually handling and wash contaminated clothing before re-use. IF IN EYES: Rinse cautiously with water for several minutes. IF INHALED: Remove person to fresh air. IF exposed, concerned, unwell or irritation persists: Get medical advice/attention.
