

# RUSTIC FILLER

Stir-in Aggregate Blend for Decorative Epoxy Topping

## DESCRIPTION

**A stir-in, aggregate blend for creating a 2mm trowel-down decorative epoxy topping.**

Quality minerals are selected and a specialty blend of particles used to make a durable decorative finish that offers the classic concrete look, without the need to work the film or manipulate pigments.

## USES

Suitable for use in Artepoxy Liquid Crystal Decorative Floor Coating.

## PRODUCT DETAILS

Type: Aggregate blend.  
Colour: Natural colour.  
Pack Size: 16.45kg.

## BENEFITS

- ✓ Specially formulated aggregate blend.
- ✓ Pre-measured quantities for easy addition/mixing.
- ✓ Genuine concrete look without working the film.
- ✓ More durable than cementitious micro-toppings.

## MIXING

For full safety instructions, consult SDS. Wear protective clothing, goggles and gloves to prevent skin/eye contact.

Add one bucket of Rustic Filler for every 12-litre kit of Liquid Crystal. Use a drill mixer to pre-mix pigment into Part A first, then add Part B before introducing the entire contents of Rustic Filler. Mix all four components together until a consistent colour is obtained, scraping sides with a flat spatula to ensure all product is taken in.

## PRODUCT NOTES

- Total volume of Rustic Filler when mixed into 12-litre kit of resin is approximately 18.5 litres.
- Although mixture is resin rich, some surfaces will benefit from priming first with a suitable epoxy resin.
- For best results, apply at no less than 2mm thickness. Spread with a trowel or squeegee. Aggregate is designed to flow with resin and pigment to achieve patterning without working the film.

## STORAGE

Keep containers closed when not in use. Seek advice from your local council regarding accepted disposal methods.
