

PIGMENT POT

Stir-in, Solid-colour Pigment Additive for Epoxies

DESCRIPTION

A solid-colour, stir-in pigment pack for use in solventless two-pack epoxies.

Quality pigments are dispersed in pure epoxy and pre-measured to optimum addition levels to ensure the performance of the coating isn't compromised.

USES

Suitable for use in all epoxy floor coatings manufactured by Real World Epoxies - Artepoxy, Ezypoxy and Jaxxon.

PRODUCT DETAILS

Type: Pigment dispersed in liquid epoxy.
Colour: All Australian Standard colours.
Pack Size: 640mL.

BENEFITS

- ✓ Pre-measured volume for simple use.
- ✓ Easy to handle and mix into epoxy coatings.
- ✓ No solvents or diluents that interfere with coatings.
- ✓ All Australian Standard colours available.

MIXING

For full safety instructions, consult SDS. Wear protective clothing, goggles and gloves to prevent skin and eye contact.

Add one pigment pot per 12 litre kit. Scrape pigment into Part A and blend with a drill mixer until a consistent colour is obtained. Add Part B and mix thoroughly, scraping sides with a flat spatula to ensure all product is taken in.

PRODUCT NOTES

- Some settling may be experienced over long periods without use. Re-disperse thoroughly before use.
- Do not use more than the recommended volume as it can interfere with coating properties.
- Special colours can be made on request (minimum volumes and extra costs may apply).

STORAGE

Keep containers closed when not in use. Store below 40°C. Do not store in direct sunlight. Shelf life is at least 12 months in original, unopened container. Seek advice from your local council regarding accepted disposal methods.

FIRST AID

CAUTION: KEEP OUT OF REACH OF CHILDREN.
IF ON SKIN: Remove immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Immediately call a POISON CENTRE (Australia - 13 11 26) or doctor/physician. If skin irritation occurs: Get medical advice/attention.
