

COVE MIX

Stir-in Aggregate Blend for Coving

DESCRIPTION

A stir-in, aggregate blend for creating coving compounds with clear, two-pack epoxy binders.

Quality minerals are selected and a specialty blend of particles used to make coving material that's easy to work with and holds its shape without messy additives such as fumed silica.

USES

Suitable for use in all clear epoxy binders manufactured by Real World Epoxies - Artepoxy, Ezypoxy and Jaxxon.

PRODUCT DETAILS

Type: Aggregate blend.
Colour: Natural sand colour.
Pack Size: 18.30kg.

BENEFITS

- ✓ Specially formulated aggregate blend.
- ✓ Pre-measured quantities for easy addition/mixing.
- ✓ Easy to work viscosity when mixed.
- ✓ Holds shape without fumed silica.

MIXING

For full safety instructions, consult SDS. Wear protective clothing, goggles and gloves to prevent skin/eye contact.

Add one Cove Mix for every 3 litres of resin. If pigmentation, pre-mix into Part A with a drill mixer then add Part B before introducing the entire contents of Cove Mix. Mix all components together until a consistent colour is obtained, scraping sides to ensure all product is taken in.

PRODUCT NOTES

- Total volume of Cove Mix when mixed into 3 litres of resin is approximately 10 litres.
- Prime all surfaces first with a suitable epoxy resin.
- Pigmenting can result in a more fluid mix which may require more aggregate to achieve suitable viscosity.
- Not suitable for coving radius greater than 50mm.
- Methylated spirits can be used on the surface of the coving tool to slick off and achieve a smoother finish.

STORAGE

Keep containers closed when not in use. Seek advice from your local council regarding accepted disposal methods.

FIRST AID

CAUTION: KEEP OUT OF REACH OF CHILDREN.
IF ON SKIN: Rinse skin after manually handling and wash contaminated clothing before re-use. IF IN EYES: Rinse cautiously with water for several minutes. IF INHALED: Remove person to fresh air. IF exposed, concerned, unwell or irritation persists: Get medical advice/attention.
